Office Action Summary

Application No.

10/786,151

Applicant(s)

MIYASAKA, MITSUTOSHI

Examiner

Jesse A. Fenty

Art Unit

2815

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 22 September 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 24-32 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 25 is/are allowed.
- 6) ☒ Claim(s) 24, 26, 28, 29 and 32 is/are rejected.
- 7) ☒ Claim(s) 27, 30, 31 is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. _____.
 - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 24, 26, 28, 29 and 32 are rejected under 35 U.S.C. 102(e) as being anticipated by Yamazaki et al. (US 2003/0132483 A1).

In re claim 24, Yamazaki (e.g., Fig. 1) discloses a complementary thin film transistor circuit, comprising:

a substrate;

a first thin film transistor that is formed on the substrate, the first thin film transistor including a first semiconductor film, a first gate electrode, and a first gate insulating film disposed between the first semiconductor film and the first gate electrode, and the first semiconductor film including a first source region (115), a first drain region (119), and a first channel region (117); and

a second thin film transistor that is formed on the substrate, the second thin film transistor including a second semiconductor film, a second gate electrode, a second gate insulating film disposed between the second semiconductor film and the second

Art Unit: 2815

gate electrode, the second semiconductor film including a second source region (126), a second drain region (122) and a second channel region, the first drain region and the second drain region being in contact with each other and the first source region being separated from the second source region.

The same configuration is also disclosed by Yamazaki et al. (US 2002/0117736 A1) and Yamazaki et al. (U.S. Patent No. 6,617,644 B1). Both of said references are also cited here to reject claim 24 under 35 USC 102(e).

In re claim 26, Yamazaki et al. discloses the device of claim 24, further comprising

a plurality of crystal grains formed on the substrate, each of the plurality of crystal grains being a single crystal grain, one of the plurality of crystal grains including the first semiconductor film and the second semiconductor film (section [0080]).

In re claim 28, Yamazaki et al. discloses the device of claim 24, wherein the first channel region and the second channel region have a same plane orientation.

In re claim 29, Yamazaki et al. discloses the device of claim 24, wherein the first TFT is N-channel and the second TFT is P-channel.

In re claim 32, Yamazaki et al. discloses the device of claim 24, wherein the TFT is a complementary TFT transistor circuit.

Allowable Subject Matter

Claim 25 is allowed.

Art Unit: 2815

Claims 27, 30 and 31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 1 – 23 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
